

## **FOR IMMEDIATE RELEASE**

### **CATI Training Systems Awarded ISO 9001:2015 Certification**

**Ozark, AL., March 1x, 2021** - CATI Training Systems, (CATI), a leader in innovative Image Generator and Simulation Solutions, is proud to have been awarded ISO 9001:2015 certification, one of the internationally recognized standards issued by the International Organization for Standardization.

As part of our commitment for product quality and continued improvement, the ISO 9001:2015 certification will ensure that CATI's products meet the expectations of our customers through the implementation of an effective Quality Management System.

CATI staff has invested more than 6 months updating internal Quality Assurance and Procedural Engineering documentation in order to meet ISO 9001:2015 compliance. The entire process involved initial assessments, ISO consultant expertise, and on-site audits to ensure all the CATI documentation and processes meet the requirements of the International Organization for Standardization.

For more information, please contact Vincent Hill, Vice President of Business Development.

### **About CATI Training Systems**

CATI is headquartered in Ozark, AL, was initially incorporated in 1992 as Carmel Applied Technologies, Inc. CATI entered the competitive visual system providers market in 1997 with an OpenGL® Silicon Graphics (SGI) based image generator, X-IG®. CATI Training Systems continues to provide engineering services and products for government, commercial, and civilian organizations around the world.

Today, CATI's image generator solutions and UAS Training devices are all PC-based. CATI's image generators are specifically designed around industry-standard OpenGL®, a high-performance graphics Application Programming Interface (API), and OpenFlight®, the 3D standard format for the visual simulation industry. The open design of X-IG® and X-Gen®, run on 100% Commercial-Off-the-Shelf (COTS) PC-based hardware and software. This allows us to offer high-performance, versatile capabilities for various types of training, testing, and experimentation. X-IG® and its suite of associated tools and programs offer superior image fidelity, realism, and ease of integration with most simulation systems.

Every system CATI delivers provides unmatched ease of use, open architecture, COTS tools, and flexible interface options as well as low acquisition, overhead, and life cycle support costs.
