

FOR IMMEDIATE RELEASE

CATI Training Systems Joins the National Center for Simulation

Ozark, AL, June 25, 2021 – CATI Training Systems, a leader in innovative Image Generator & Simulation Solutions, has become a member of the Orlando-based National Center for Simulation (NCS), joining hundreds of other industry members in the modeling, simulation, and training community. CATI looks forward to working with the NCS and developing partnerships with its members to deliver high-fidelity visualization for military and commercial flight simulation training devices.

About the Nation Center for Simulation (NCS)

The NCS is a not-for-profit trade association with government, academic and industry members operating as an open consortium. The vision of NCS is to be the internationally recognized leader in promoting, protecting, and growing the modeling, simulation, and training (MS&T) community.

About CATI Training Systems

CATI is headquartered in Ozark, AL, and was initially incorporated in 1992 as Carmel Applied Technologies, Inc. CATI entered the competitive visual system providers market in 1997 with an OpenGL® Silicon Graphics (SGI)-based image generator, X-IG®. CATI Training Systems continues to provide engineering services and products for government, commercial, and civilian organizations around the world.

Today, CATI's image generator solutions and UAS Training devices are all PC-based. CATI's image generators are specifically designed around industry-standard OpenGL®, a high-performance graphics Application Programming Interface (API), and OpenFlight®, the 3D standard format for the visual simulation industry. The open design of X-IG® and X-Gen®, run on 100% Commercial-Off-the-Shelf (COTS) PC-based hardware and software. This allows us to offer high-performance, versatile capabilities for various types of training, testing, and experimentation. X-IG® and its suite of associated tools and programs offer superior image fidelity, realism, and ease of integration with most simulation systems.

Every system CATI delivers provides unmatched ease of use, open architecture, COTS tools, and flexible interface options as well as low acquisition, overhead, and life cycle support costs.

CATI Training Systems, ISO 9001:2015 Certified Company
